

CURRICULUM VITAE

(Last updated: 2019-07-09)

**Han-Cheol Choe,
Ph.D in Materials Science and Dentistry**

PERSONAL INFORMATION

Office: Advanced Functional Surface & Biomaterials Research Lab.
 Department of Dental Materials, College of Dentistry, Chosun University
 309 Pilmun-daero, Dong-gu, Gwangju 61452, South Korea
Tel: (+82) 62 230 6896 (Korea)
Email: hcchoe@chosun.ac.kr; hancchoe@yahoo.com

EDUCATION

B.S.	Materials Science, Chonnam National University	1984
M.S.	Metallurgical Engineering, Chonnam National University	1986
Ph.D.	Metallurgical Engineering, Chonnam National University	1993
M.S.	Dentistry, Chonnam National University	2004
Ph.D.	Dentistry, Chonnam National University	2006

PROFESSIONAL EXPERIENCE

Academic Positions

2003-present	Professor, Dental Materials, College of Dentistry, Chosun University
1995-2003	Professor, Department of Metallurgical Engineering, Gwangyang University
1993-1994	Lecturer, Department of Metallurgical Engineering, Suncheon National University
1994-1995	Guest Researcher, National Research Institute for Metals, Japan
1996-1996	Visiting Professor, Pennsylvania State University
2004-2004	Visiting Professor, Tokyo Institute of Technology
2006-2007	Visiting Professor, Dental Materials, College of Dentistry, Ohio State University

Published Articles

1. S.G. Lim, H.C. Choe (2019) Bioactive apatite formation on PEO-treated Ti-6Al-4V alloy after 3rd anodic titanium oxidation. *Appl Surf Sci* 484:365-373.
2. J. M. Jang, H.C. Choe, W.A. Brantley (2019) Surface observation of nanotube-formed titanium by anodization in electrolyte containing hydroxyapatite nanoparticles. *Appl Surf Sci* 483:76-84.
3. S. P. Kim, H. C. Choe (2019) Functional Elements Coatings on the Plasma Electrolytic Oxidation-Treated Ti-6Al-4V Alloy by Electrochemical Precipitation Method. *J Nanosci Nanotech* 19:4344-4349.
4. I. J. Hwang, H.C. Choe (2019) Effects of Zn and Si ions on the corrosion behaviors of PEO-treated Ti-6Al-4V alloy. *Appl Surf Sci* 477:79-90.
5. J.M. Jang, H.C. Choe (2019) Evaluation of bone formation on ultra-fine structures in simulated body fluid. *Appl Surf Sci* 477:271-279.
6. S.G. Lim, H.C. Choe (2019) Morphology changes and bone formation on PEO-treated Ti-6Al-4V alloy in electrolyte containing Ca, P, Sr, and Si ions. *Appl Surf Sci* 477:50-59.
7. J. M. Yu, H.C. Choe (2019) Morphology changes and bone formation on PEO-treated Ti-6Al-4V alloy in electrolyte containing Ca, P, Sr, and Si ions. *Appl Surf Sci* 477:121-130.
8. M. G. Park, H. C. Choe (2019) Functional Elements Coatings on Ti-6Al-4V Alloy by Plasma Electrolytic Oxidation for Biomaterials. *J Nanosci Nanotech* 19:1114-1117.
9. I. J. Hwang, H. C. Choe (2019) Surface morphology and cell behavior of Zn-coated Ti-6Al-4V alloy by RF-sputtering after PEO-treatment, *Surf. Coat. Tech* 361 386-395.
